LEBANON. OREGON

How the Most Notorious Marconer of the Last Century Lost All His Treasure. First of all upon the list of pirates stands the bold Captain Avary, one of the institutors of marconing. Him we see but dimly, half hidden by the glamouring mists of legend and tradition. Others who came afterward out-

gland, fitted out two vessels to assist in this landable project; for doubtless as it absolutely prohibits the coming of Chinese to this country, except those who come in government capacities. old time. One of these vessels was named the Duke, of which a certain Captain G bon was the commander and Avary the mate.

Away they sailed to the West Indies, and there Avary became impressed by the advantages offered by piracy, and by the amount of good things that were to be gained by very

One night the captain (who was one of those fellows mightily addicted to runch), instead of going ashore to saturate himself at the ordinary, had his drink in his cabin in private. While he lay snoring away the effects of his rum in the cabin. Avary and a few other conspirators heaved the anchor very leisurely and sailed out of the harbor of Coronna, and through the midst of the allied fleet riding at anchor in the darkness.

By and by, when the morning came, the captain was awakened by the pitching and tossing of the vessel, the rattle and clatter of the tackle overhead, and the noise of footsteppas ing and repassing hither and thither across the deck.

"What's the matter?" bawls the captain from his berth. "Nothing," says Avary, coolly.

"S mething's the matter with the ship," says the captain. 'Does she drive? What weather is it?" "Ob, no," says Avary; "we are al

**Come, come?" says Avary; "I'll dalles of the Columbia.

Also a bill to amend section 3019 of the revised statutes relating to draw-backs on dutiable imported materials when manufactured and exported. This bill is designed to be of benefit to canners of salmon who use tin, mind to ship for the cruis; why, we'll be glad to have you, if you will be 'Come, come!" says Avary; 'Til tell you; you must know that I'm the sober : n | mind your own b: siness; if

who, like him, refused to join with Elkton. their jolly shipma ex

The rest of them sailed away to the East Indies. On his way Avary picked up a couple of like kind with himself-two sloops off Madagasear. With these he sailed away to the coast of India, and for a time his name was lost in the obscurity of uncertain history. But only for a time, for suddenly it flamed out in a blaze of glory. It was reported that a vessel belong ing to the Great Mogul, laden with treasure and bearing the monarch's own daughter upon a holy pilgrimage to M cca (bey being Mohammelans) had fallen in with the pirates, and after a short resistance had been surrendered, with the danisel, her court and all the diamonds, pear's, silk silver and go'd aboard. It was rumon d that the Great Mogul, raging at the insult offered to him through his own flesh and blood, had threatened to wipe out of existence the few English settlements scattered along the coast; whereat the honorable East India Company was in a pretty state of fuss and as indecent. As for the treasure itwhich it grew as it passed from mouth

Cracking the nut of romance and exaggeration, we come to the kernel of the story—that Avary did fall in with an Indian vessel laden with grea treasure (and possibly with the Mo-gul's daughter), which he captured. and thereby gained a vast prize.

Having concluded that he had earned enough money by the trade he had un-dertaken, he determined to retire and live decently for the rest of his Ife upon what he had already gained.

At first Avary had a great part of a setts, and had that little town been one whit less bleak and forbidding, it might have had the ho or of being the home of this famous man. As it was, he did not like the looks of it, so he sailed away to the eastward, to Ire-land, where he settled himself at Bid-6 and 4 years, and then tried to kill

pearls, diamonds, rubies, etc., but killed and two men wounded. with bard y a score of honest farthings with hard y a score of honest farthings to jingle in his breeches pocket. He prize the properties of the last that the prize saw of his last that the prize

CONGRESSIONAL.

Legislation Pertaining to the Interest of the Pacific Coast.

Washington.—Mitchell, of Oregon, will introduce a bill at the first opportunity after Congress assembles to repeal all laws, whether treaties or acts stripped him far enough in their doings, but he stands pre-eminent as the first of marconers of whom actual history has been handed down to us of the present day.

When the English, Daten and Spanish entered into an alliance to suppress is entered. It will only individual and the United States is entered. When the English, Duten and Spanish entered into an alliance to suppress buccaneering in the West Indies, certain worthies of Bristol, in Old Entered in the West Indies, certain worthies of Bristol, in Old Entered in the West Indies, certain worthies of Bristol, in Old Entered in the West Indies, certain worthies of Bristol, in Old Entered in the West Indies, certain worthing the West Indies worthing

> Also a bill to protect purchasers of land from the Northern Pacific railroad, in case their is forfeiture of the land granted to that corporation be tween Wallula and Portland. He wil also introduce a bill to reimburse se tlers on even numbered sections of public land within the limits of the land grants in case of forfeiture of odd numbered sections. This bill is intended to reimburse those settlers who were compelled to pay \$2.50 per acre for public land within the limits of land grants which subsequently be came forfeited; settlers receiving no benefit by the building of a railroad because pone was built, while other Wm. Hardin, the 16-year-old son of

Also a bill making an appropriation for the equablishment of a life-saving ew at Yaquina Bay, Oregon. Also a bill to provide for the erec-tion of a public building for a custom house at Yaquina Bay.

Also a bill to provide for the appropriation of \$1,3000,000 for continuing

favorably reported by a Senate committee during the last session of Congress appropriating \$500,000 for the construction of a boat railroad at the dalles of the Columbia.

H. L. Robertson, living near Grant's named H. A. January last.

The snowsh five pounds.

sober : n I mind your own besiness; if not, there is a boat alongside, and I il have you set ashore."

The poor half-Sp y captain had no relish to go a-pirating unfer the command of his back-silding ma'e, so out of the ship he bundled, and away he rowed with four or five of the crew, who, like him, refused to join with

He will also introduce a joint resolution for the appointment of a communission by the Secretary of the Navy for the purpose of selecting a site for a naval station on the Pacific coast.

Well.

Dr. Shelton's new palatial residence at Eugene was totally destroyed by fire. The house was just about completed at a cost of \$8,000. The cause of the fire is unknown, probably incendiary.

Also a bill appropriating sufficient money for the re-survey and re-location, shortening and improvement of the military wagon road between Rogue River valley and Fort Klamath, Occasion.

Government employ weighing the mail that passes over the Oregon Short Line, and find that it is just three times heavier than it was at the same time last year. This is a striking and indisputable evidence of the increased growth of the country.

light-house department at Astoria.

the country. He has prepared a bill to provide for carrying out the plans of the commission that made a report on raisers of Willow creek, Malheur countries of Willow creek, Willow cre self, there is no end to the extent to Diego, and the northern coast of which it grew as it passed from month Washington territory. The bill appro-Washington territory. The bill appropriates \$27,000,000 for the defense of San Francisco harbor. The defense printes \$27,000,000 for the defense of San Francisco harbor. The defense would consist of turrets, harbette batteries, submartne mines, torpedo boats, thirty floating batteries and mortar batteries. The bill approproates \$2,519,000 for the defense of the mouth of the Columbia, to consist of barbette batteries, submarine mines and 15 torpedo.

Rogue River valley's corn crop was a fair one this year, although the season was not considered as favorable as the average. The farmers are learning that thorough cultivation often takes the place of favorable weather. Few sales of corn are made, but the price is quoted at 50 cents per busnet. ies, submarine mines and 15 torpedo boats. The bill gives San Diego harbor \$594,000 for the same purpose.

Joseph Drougard had the high boat at the O. S. P. Co's cannery, Empire, this season, having caught 1,637 sal-
